

## **WORKSHOP:**

# **BEST PRACTICES IN FLOOD RISK MANAGEMENT**

**Brussels, 17-18<sup>th</sup> September 2013**

9 July 2013 | Press release  
**“Floods dominate natural catastrophe statistics in first half of 2013 – Damage > € 12 Billion”**

12 September 2013  
**“Romania flash floods kill eight and force evacuations”**

14 September 2013  
**“Colorado floods cause heavy damage”**

16 September 2013  
**“Mexico : Landslides and Floods”**

## Tuesday 17<sup>th</sup> Main Topics:

1. Directive principles to apply
2. Technical tools: flood model simulations
3. International approach: river basin approach
4. Non structural measures – Green infrastructure

## Wednesday 18<sup>th</sup> Case Study Themes:

1. Cross border aspects (challenges + opportunities)
2. Flood modelling
3. Room for the river
4. Flow Management – river basin planning

# Different problems – Different solutions
