

Where we are..

- EUR 1383 m spent in 14-20 on DHC and cogen
- EUR 2390 m on Intervention Fields 054, 055 (High efficiency co generation, efficient district heating and cooling / with low lifecycle emissions)
- 44% on low lifecycle emissions

COHESION POLICY FUNDS

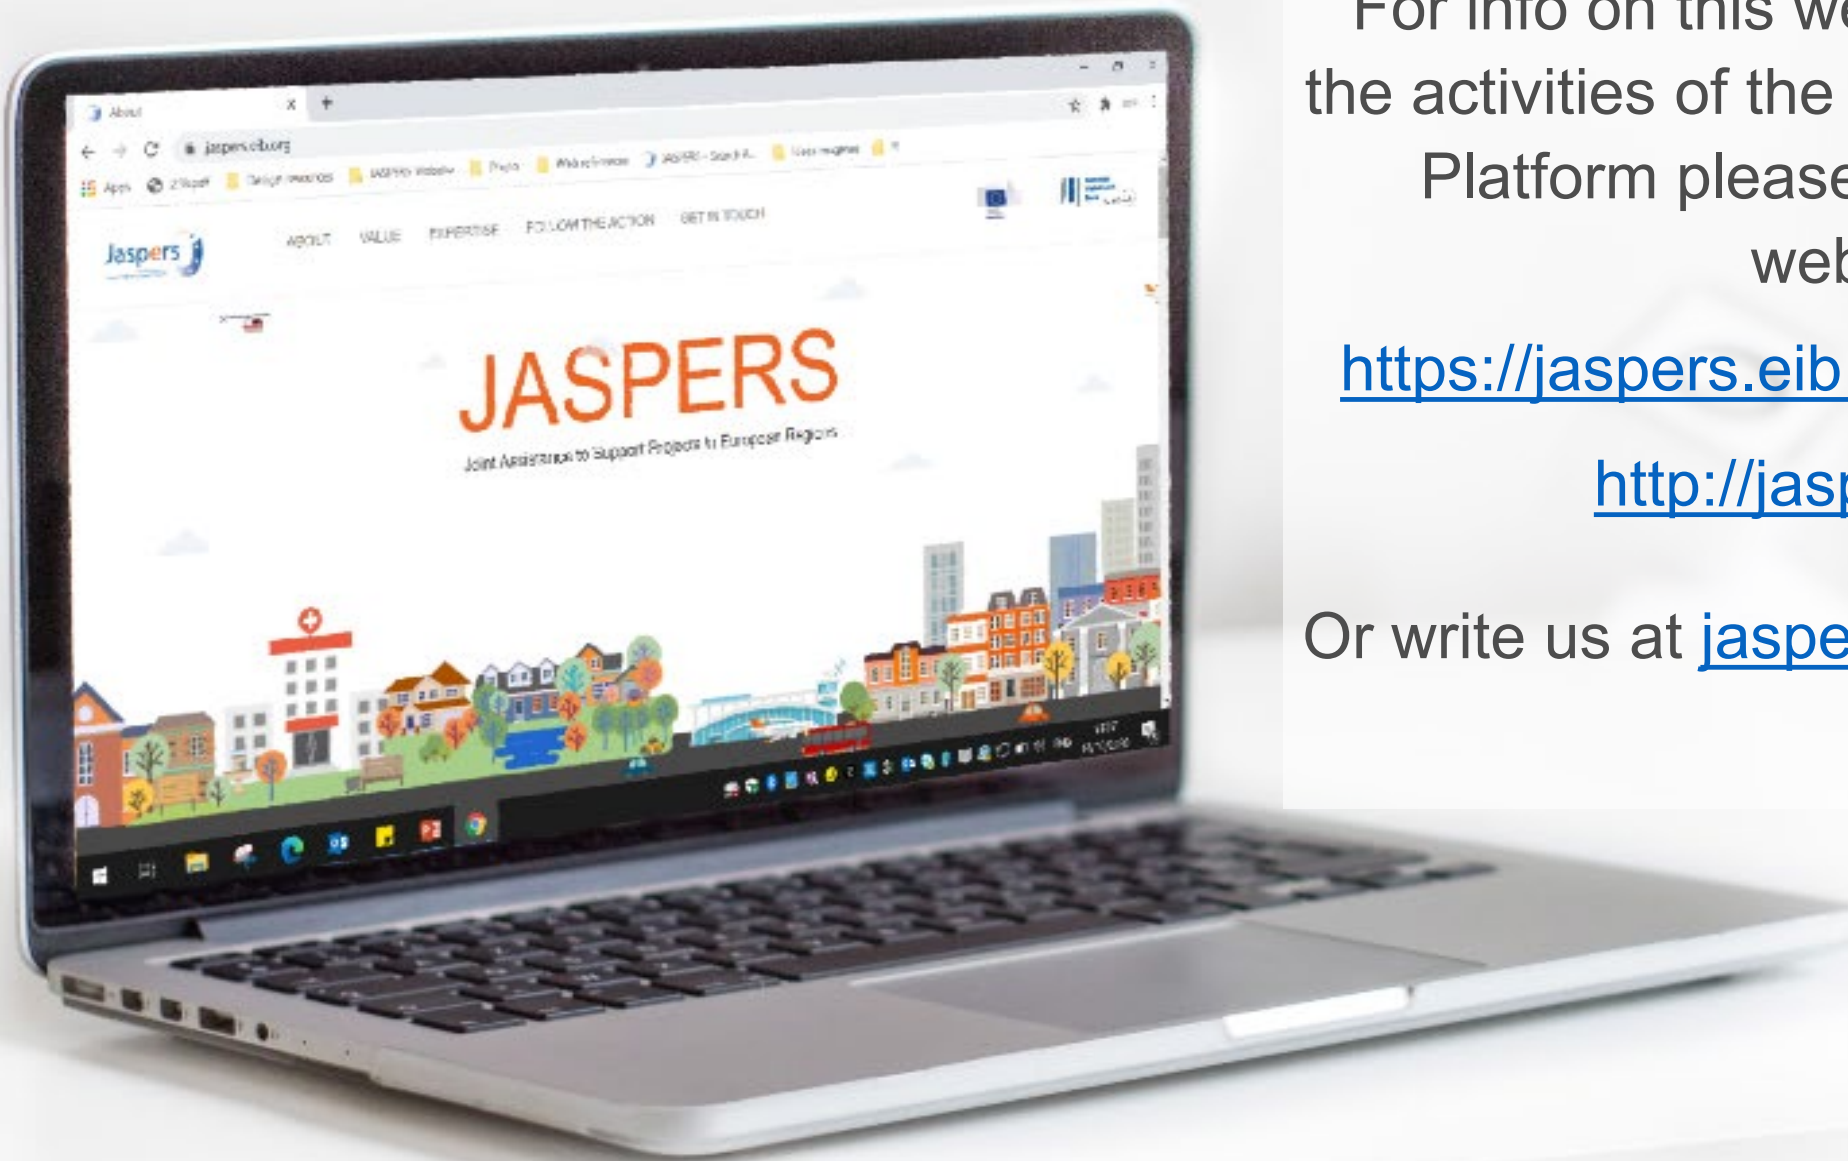

Where we want to go..

‘Cohesion policy should be aligned to wider EU priorities, be more focused, simpler and more impactful and help mobilise reforms and investments’

Political Guidelines 2024-2029

- Build a **Clean Industrial Deal** to decarbonise and bring down energy prices for energy-intensive industries;
- support **EU clean tech industry** for development, production and diffusion in markets;
- ensure **consumers** benefit from the lower production costs of clean energy.
- scale-up and **prioritise investment in clean energy infrastructure and technologies**, particularly in:
 - renewables and low-carbon technologies, grid infrastructure and its digitalisation, storage capacity, energy efficiency measures..
