Challenges the city of Wrocław

Jakub Mazur
Deputy Mayor of Wrocław
President of METREX
What happened in Wrocław?
Only in 2022

1. 250 000 refugees from Ukraine

2. Poisoning of the main river

3. Energy price crisis

4. etc...
Round table and White Book
WROCŁAW
THE CITY OF
A MILLION

RESILIENCE STRATEGY 2050
Needs, investments, scope

- **Flats** (5.5 bn USD)
- **Schools and kindergartens** (90 mil USD)
- **Health protection**
- **Public transport infrastructure** (160 mil USD)
- **Reconstruction of the city's crisis resources** (one-time cost – 10 mil USD)
- **Energy** partial self-sufficiency and crisis resilience (0.5 bn USD)

**Our objective:** implementation of the most important policies accoring to UN SDGs and of the European Union -Green Deal, or energy and digital transformation.
Building resilience

• National Music Forum
• Modernisation of Regional Wroclaw Floodway System
• Development of Mikolaj Kopernik Airport
• Modernisation of the Wroclaw City Floodway System
• Dolnoslaskie Centre for Materials and Biomaterials
1. Supporting the goal of the Climate Neutral and Smart Cities Mission

- advisory support for modelling and financing energy transformation of entire districts in the city.

The aim is to transform districts into green zero-carbon urban zones.

2. New District – pl. Spoleczny

Building new city center dedicated to future orientated vision of Wroclaw. Inclusive, Green, Sustainable
Thank you
